

# Zoef Shaikh

Full-Stack Developer

📍 Mumbai, India 📞 9967298571 🌐 zoef.dev ✉ shaikhzoef36@gmail.com **in** LinkedIn **🔗** GitHub

---

## Professional Summary

Full-stack developer with 2+ years of experience building performant, scalable web applications using React, Next.js, and Node.js. Proven track record in improving Core Web Vitals, developing CI/CD pipelines, and deploying containerized apps. Passionate about clean UI/UX, efficient systems, and long-term maintainability.

---

## Experience

### • Fullness Web Solutions

June 2022 – July 2024 — Remote 📍

- Optimized **Core Web Vitals (CWV)**, focusing on **Largest Contentful Paint (LCP)**, by implementing advanced **Next.js** performance strategies. **Reduced affected URLs from 250+ to under 45** in Google Search Console, significantly improving page speed and user experience.
  - Implemented **structured data** using **Schema.org** for **FAQs and author pages**, enabling rich snippets and driving increased organic traffic across thousands of indexed pages.
  - Led the development of **Cypress end-to-end test suites**, writing and maintaining coverage for core UI flows. Integrated with **Cypress Cloud** to detect flaky tests early, improving test reliability and reducing regression time for the team.
  - Redesigned a **modular product iframe** for use across external partner sites, improving **visual consistency**, interactivity, and cross-site compatibility.
  - Delivered **scalable, reusable UI components** and handled **pixel-perfect implementations** for the RateCity website. Contributed to ongoing site maintenance and front-end code quality.
- 

## Skills

**Frontend:** React.js, Next.js, TypeScript, JavaScript, TailwindCSS, Styled-components, Remix.js

**Backend:** Node.js, Express.js, NestJS, REST APIs, GraphQL, MongoDB

**Testing & DevOps:** Cypress, Docker, CI/CD

**Tools:** Git, GitHub, Nginx, Postman

---

## Projects

- **Review It – Multi-Media Review Platform** 🌐 Live Demo 🌐 Frontend 🌐 Backend  
Full-stack platform for user-generated reviews, built with **Next.js, NestJS, MongoDB, and Docker**. Backend deployed on a **self-hosted VPS** using **Nginx** for routing and reverse proxy management.
  - **Gamers Connect – Social App Prototype** 🌐 Live Demo 🌐 GitHub  
Real-time social media app using **React.js and Firebase**, with chat, authentication, and profile features.
  - **Media Grabber – YouTube Downloader** 🌐 Live Demo 🌐 Frontend 🌐 Backend  
Tool to download media from YouTube using **Next.js and Node.js**, with format and extension selection. Backend hosted on VPS.
- 

## Education

**B.Sc. Information Technology**, Valia College, Mumbai

2018 – 2021

---

## Additional Experience

- **Mobile Application Developer Intern — Kudosware** Apr 2021 – Sep 2021 — Remote  
Developed Flutter apps with real-time features using Firebase and implemented social media integration using Facebook and Instagram APIs. Delivered key features for projects like Dropz and Infrabrand within tight deadlines.
